## GoPay Case Study

### Changing direct observation into indirect observation via technology

アディット @siochoy

Guys aku lagi iseng mau bikin polling di Twitter soal YouTube Ads, yg bantu isi semua polling nanti aku transferin 1 orang beruntung saldo GoPay 25k 🚀

Caranya cukup jawab pollingsnya terus RT supaya aku tau siapa yg udah ikutan. 😊 Makasih.

The collage consists of three vertically stacked screenshots from a video conference:

- Top Screenshot:** A screenshot of a video call interface. At the top, it shows a participant list with "(42)" and a message bubble icon. Below the header, a red banner displays the text "Mohon isi feedback form berikut" and "bit.ly/GDOnline2020". The main video frame shows a person wearing glasses. On the right side of the screen, there is a sidebar with various control icons.
- Middle Screenshot:** A screenshot of a video call interface. It shows a person wearing glasses in the main video frame. The interface includes standard Zoom controls at the bottom: Unmute, Start Video, Share, Participants (with a red notification badge), and More. The recording status is indicated as "Recording".
- Bottom Screenshot:** A screenshot of a video call interface showing two participants: Andreas Senjaya and Indriana Indiana. The video frames show them in front of the British Parliament building and a person wearing a pink hijab. The bottom part of the screen shows a smartphone home screen with various apps and a weather widget displaying 33°. A small pop-up message on the phone screen reads: "This meeting has ended as someone has started a new meeting with this account." There is also a red notification badge on the phone's notification bar.
